NEW Section 13 tracking, cap, enforced at receipt entry

Sell every unit. Stay compliant on every rupee.

DeedFlow is the CRM that runs an Indian developer's whole sales floor — portal leads, presales calls, site visits, cost sheets, bookings and collections — with RERA, GST, TDS and a strict audit trail from day one.

Leads land in one inbox, deduplicated at the door.

99acres Google MagicBricks Housing

THE LEAD · FOLLOW · CONVERT · AT SCALE

The whole sales lifecycle, in the order your team actually works it.

Click through the stages. Each one hands clean data to the next, so nothing is retyped between presales, sales and accounts.

1 Capture 2 Score 3 Call 4 Site visit 5 Cost sheet 6 Booking 7 Collections 8 Possession

STAGE 01 / 08 · CAPTURE

Every portal lands in one inbox.

Leads from listing portals and ad platforms arrive in seconds and are deduplicated at capture, so two partners never create two buyers.

- 99acres, MagicBricks, Housing, IndiaMART, Meta and Google lead APIs
- Dialcaps on phone and email before the lead is saved
- Auto-assignment by project, source and round-robin rules

Auto-paying · 20 of a stage to take over

COMPLIANCE BY DESIGN

Compliance runs inside the money flow, not in a report after it.

Every receipt, demand and refund passes the same checks before it posts. Your accounts team stops reconciling after the fact; your auditor gets a trail that was written as it happened.

RERA 2(z) cap
Blocks any receipt above 10% before agreement

RERA escrow & filings
Quarter and annual reports in Hindi

GST & e-invoicing
Tax on every demand, IRN on invoices

TDS 194-IA & 194H
On property sale and partner distributions

PMLA
KYC and repayment mode checks

DPDP
Consent, purpose and retention

How each check works →

VS

Vikram Singh

+91 98XXX 54321 · HOT

00:00

Recording starts only after consent is captured

DISPOSITION

Site visit booked · Call back · Send cost sheet · Not interested · Wrong number · Already bought

One tap logs the outcome and creates the follow-up.

AI CALL ANALYSIS — Idle

End the call to see the analysis land on the lead.

02 · PRESALES & CALL CENTRE

A call centre in a browser tab.

Browser softphone, click-to-call from any lead, consented recording, dispositions and a live queue. When the call ends, AI analysis is written straight onto the lead.

Try it: press the call button, then end the call and pick a disposition.

03 · SITE VISITS

Reminders at T-1 day and T-2 hours. Feedback before the car leaves.

No-shows drop when buyers are reminded at the right time. Structured feedback makes the next call specific.

1. Visit booked by presales — Linked to lead, project and executive — Thu 4:12 PM
2. T-1 day reminder — WhatsApp and SMS with location pin — Fri 11:00 AM
3. T-2 hour reminder — Confirms the buyer is on the way — Sat 9:00 AM
4. Visit at site office — Executive checks in at the site — Sat 11:00 AM
5. Structured feedback — Liked, objections, next step — Before leaving site

Visit feedback · Priya Sharma — Tower B

LIKED: Layout · View · Amenities · Location

OBJECTIONS: Price · Possession date · Floor · Parking

AUTO NEXT STEP: **Share RERA possession timeline and construction update.**

04 · INVENTORY

Project > Tower > Floor > Unit. Live, for everyone.

Generate a whole tower in bulk, then watch availability change as holds are placed and bookings land. Holds expire on their own, so stale blocks never freeze stock.

Available · On hold · Booked · Blocked by management

UNIT **B-1204** — Booked

Type: 3 BHK · Carpet area: 1,480 sq ft · Facing: West · Floor: 12

Booked. Linked to booking, cost sheet and payment plan.

View booking

06 · PRICING ENGINE & COST SHEETS

The same price, every time. Then frozen.

PLC, floor rise, facing premiums, offers and GST computed by one engine. Change the inputs below, then freeze the sheet.

Saleable area: 1450 sq ft

Floor: 12

Preferential location (PLC): None · Park facing · Corner

Facing: Any · East · North · Road

Offer: None · Festive −₹75/sq ft · Early bird −₹120/sq ft

Sample project rates for illustration. Your rates, PLC tables and GST rules are set per project.

Cost sheet · B-1204 — CS-2609-0412 · editable — Draft

Base price (1,450 sq ft × ₹6,000)	₹87,00,000
Floor rise (Rising ₹ × 6 floors above 4)	₹5,80,000
PLC (Park facing)	₹2,90,000
Facing premium (Any)	₹0
Offer (Festive −₹75/sq ft)	−₹1,08,750
Agreement value (Before tax)	₹94,61,250
GST (5% sample rate, set per project)	₹4,73,063

Total consideration ₹99,34,313

Freeze & share with buyer — Freezing locks every line the buyer sees.

05 · BOOKINGS & AGREEMENTS

EOI to possession, as real states with real documents.

01 EOI · 02 Booking · 03 Agreement · 04 Registered · 05 Possession

Agreement

Agreement for sale prepared. The buyer gets a proposal email with a tokenised public page to review before signing.

- DOC Agreement for sale — Draft v3 — In review
- URL Buyer proposal page — Tokenised link · viewed twice — Viewed
- ZIP KYC pack — PAN, Aadhaar, photos — Complete

07 · PAYMENTS & COLLECTIONS

Demand, receipt, clearing, ledger. In that order, every time.

CLP milestone plans raise demand letters. Receipts clear or reverse. Every movement posts double-entry, with Razorpay for online payments and automatic overdue reminders.

Construction-linked plan · B-1204 — ₹90,00,000

MILESTONE	%	AMOUNT	STATUS
On booking	10%	₹9,00,000	Cleared
On agreement	20%	₹19,00,000	Cleared
Plinth	15%	₹14,70,000	Receipt in clearing
Slab 5	10%	₹9,00,000	Demand sent
Slab 10	10%	₹9,00,000	Scheduled
Possession	35%	₹24,30,000	Scheduled

Receipt RCP-04431 — ₹14,70,000

Received · Clearing · Cleared

Advance to Clearing · Mark bounced

LEDGER — Double-entry

Nothing posts until the receipt clears.

APPROVALS
Discount and price-deviation chains
Requests route up the chain you define. Approved values freeze into the cost sheet.

CANCELLATIONS
Refunds by MahaRERA forfeiture tiers
Cancellation computes forfeiture and refund, then reverses the ledger line by line.

CUSTOMER PORTAL
Buyers see what they own
Bookings, schedule, documents and construction updates, without calling your CRM team.

WHATSAPP & TELEPHONY
Talk where buyers are
WhatsApp messaging and telephony connected to the same lead record.

SLA & GAMIFICATION
Speed you can measure
SLA timers on untouched leads and leaderboards on calls, visits and bookings.

REPORTS & MICROSITES
Out to the world, back to your inbox
Scheduled reports by email, public listings and per-project microsites feeding lead capture.

See these modules on your own inventory.

Share a tower plan and a payment plan; we will set up the demo around them.

COMPLIANCE

Compliance isn't a report you run. It's how the money moves.

RERA, GST, TDS, PMLA and DPDP checks sit inside receipts, demands and payouts. A transaction that breaks a rule never posts, and every one that does is written to a strict audit trail.

Walk through it with us | Try the checks below

RERA · SECTION 13

No receipt crosses 10% before the agreement is registered.

Section 13 of RERA limits what a promoter can take as advance or application fee to 10% of the cost until a written agreement for sale is registered. DeedFlow checks this at the moment a receipt is entered, not at month-end.

Move the sliders to see what your team would see.

Unit cost ₹98.0 L

New receipt amount ₹3,00,000

Agreement for sale registered
Already collected on this unit: ₹6,86,000

₹0 — 10% cap · ₹9.8 L

BLOCKED **This receipt would take advance to ₹9.9 L, above the ₹9.8 L cap**
Register the agreement for sale first, or reduce the receipt to ₹2,94,000.

RERA ESCROW & FILINGS

Every receipt is split at source.

RERA requires 70% of amounts realised from allottees to go into a separate account for the project. DeedFlow routes the split as the receipt clears and keeps project filings tracked alongside.

Receipt cleared ₹9,80,000

RERA ACCOUNT · 70%
₹6,86,000
Land and construction cost only

COLLECTION ACCOUNT · 30%
₹2,94,000
Operations

₹5,00,000 | ₹9,80,000 | ₹14,70,000

GST & E-INVOICING

Tax on every demand. IRN on every invoice.

GST is computed from project rules on each demand letter, and e-invoices are generated with their IRN.

Tax invoice INV/26-27/0412
IRN 9f2c…a71e
IRN generated | Slab 5 demand

TDS · 194-IA & 194H

The TDS on both sides of a sale, worked out for you.

On the buyer side, 194-IA applies when a property's consideration is ₹50 lakh or more. On the partner side, 194H applies to brokerage and commission. DeedFlow tracks both so receipts reconcile and payout runs deduct correctly.

Rates and thresholds shown are configured values; confirm current rates with your tax advisor.

194-IA · buyer | 194H · partner

Property consideration ₹98.0 L

Consideration	TDS at 1%	Paid to developer
₹98.0 L	₹98,000	₹97,02,000

Buyer deducts 1% on each instalment and files Form 26QB. DeedFlow tracks TDS credit against each receipt so the buyer ledger closes at full value.

CANCELLATION & REFUND

Refunds computed from MahaRERA forfeiture tiers.

Pick when the buyer cancels. Forfeiture follows the tier you configured, and the refund reverses through the ledger.

Within 15 days of booking — Early cancellation	1%
Within 30 days — After allotment	2%
After 30 days — Before agreement	5%
After agreement — Per agreement terms	10%

Sample tier values. Set the exact tiers from your registered agreement.

Cancellation · B-1204

Paid by buyer	₹29,40,000
Forfeiture (2% of cost)	₹1,96,000
Refund due	**₹27,44,000**

LEDGER REVERSAL
Dr Customer · Cr Bank · ₹27,44,000
Dr Customer · Cr Forfeiture income · ₹1,96,000

Needs Director approval

PMLA

KYC before money moves.

Buyer KYC is verified and payment modes are checked on each receipt, so transactions that need review are flagged before they post.

DPDP

Consent with a purpose.

Consent is captured for calls, recordings and messages, tied to a purpose and visible on the lead. Calls are recorded only with consent.

Call recording	Consented
WhatsApp updates	Consented
Marketing emails	Withdrawn

AUDIT TRAIL

Who changed what, and when.

CHANNEL PARTNER ECOSYSTEM

Brokers bring buyers. DeedFlow keeps the score fair.

Verified KYC, clear lead ownership, commission slabs and payout runs with TDS. Partners and their agents see it all in their own portal, so your team stops settling disputes on WhatsApp.

See the partner portal | Try the commission calculator

ONBOARDING

From sign-up to first lead, verified at every step.

KYC runs through SurePass and DigiLocker, so you never chase photocopies of PAN cards again.

STEP 01
Sign up
Partner applies with firm details

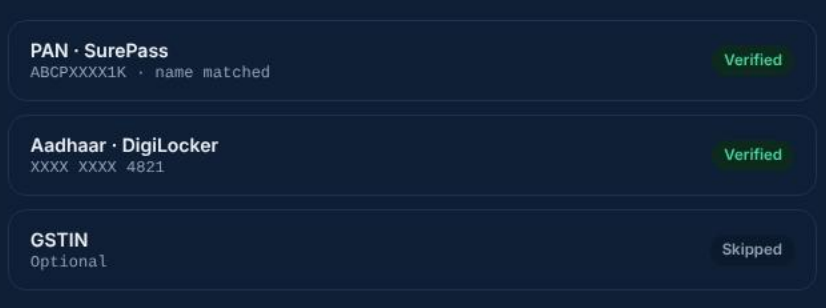

STEP 02
KYC
PAN via SurePass, Aadhaar via DigiLocker

STEP 03
Agreement
Commission slabs and terms

STEP 04
Go live
Partner and agents log in

KYC

PAN is verified through SurePass and Aadhaar through DigiLocker consent. No scanned copies, no manual checks.

LEAD REGISTRATION

Who brought the buyer? The system already knows.

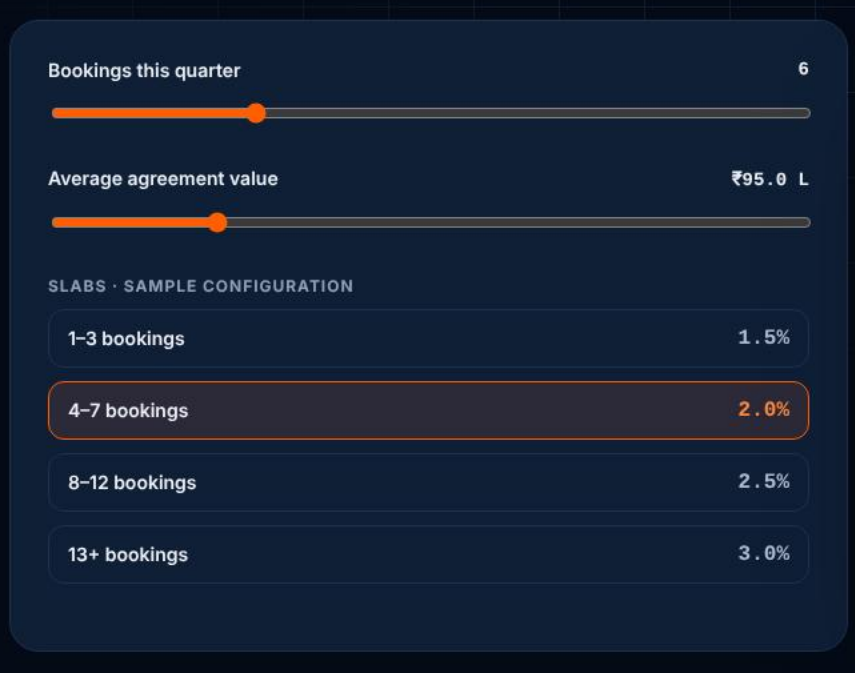

Partners register a lead before the site visit. DeedFlow checks it against existing leads and other partners' registrations, and records ownership with a timestamp.

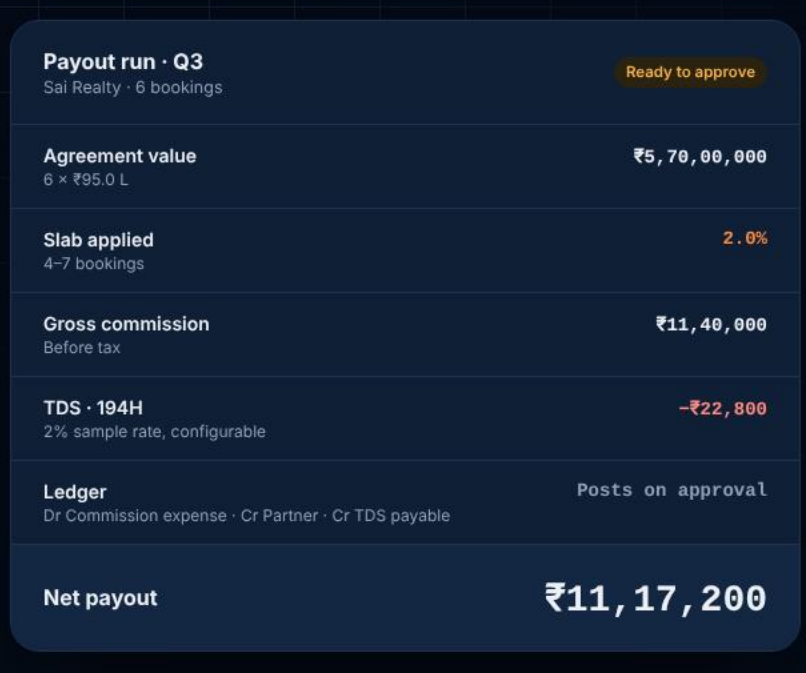

COMMISSION SLABS & PAYOUTS

Slabs that reward volume. Payouts with TDS already deducted.

Set slabs per project. Payout runs compute gross commission, deduct TDS under 194H, and post to the ledger.

FOR BOTH SIDES

What changes for your team, and for your partners.

Developer

- **No ownership disputes** — Registration timestamps settle who brought the buyer.
- **Verified partners only** — KYC through SurePass and DigiLocker before access.
- **Payouts that reconcile** — Slabs, TDS and ledger entries computed in one run.
- **One view of partner performance** — Leads, visits and bookings per partner and per agent.

Channel partner & agents

- **Register leads in seconds** — From the portal, with instant duplicate checks.
- **See every booking you earned** — Status from site visit to agreement.
- **Know your payout before it lands** — Gross, TDS and net, per run.
- **Agents inside your account** — Your agents work under your firm; ownership stays with you.

Bring your partner network onto one portal.

We will set up your slabs and KYC flow in the demo.

Start free trial | Book a demo

ABOUT

Built for the way Indian developers sell.

DeedFlow is an independent, multi-tenant SaaS CRM for property developers. We started from the money flow, because that is where generic CRMs break for Indian real estate: RERA caps, escrow splits, GST, TDS on both sides of a sale, and auditors who want to see every change.

So the landing page only shows what ships. If a feature is on this site, it is in the product today.

01
Only what ships
The site lists capabilities that are in the product today, nothing on a roadmap.

02
Compliance in the flow
Rules run when money moves, so reports are a by-product, not a project.

03
One record per buyer
Dedupe at capture and a single ledger keep every team on the same facts.

04
Every change on the record
A strict audit trail across leads, pricing, receipts and payouts.
